## JAPANESE TROOPS ARE FARING BADLY

Reported They Have Lost 3,500  
Men and Four Vessels.

Attack By Land and Sea On Port  
Arthur Repulsed—Battle Said  
to Be Raging.

IT HAS LASTED FOUR DAYS

**JAPANESE LOSE HEAVILY.**  
St. Petersburg, June 9.—A Liao Yang correspondent of Russia wires that minor naval fight occurred in the Gulf of Pechili Wednesday, in which a Japanese battleship was sunk. The correspondent adds that Chinese from the south saw the Japanese battleship was sunk. The correspondent adds that Chinese from the south saw the Japanese attacked Port Arthur, but the day is not specified. They were repulsed with a loss of 3,500 men and four war vessels, probably torpedo boats.

**BIG BATTLE IS REPORTED.**

Chefoo, June 9.—The Chinese, both merchants and coolies, are leaving Port Arthur with the permission of the Russian authorities. The reports vary but agree in a general statement that a battle has been raging for four days within ten miles from Port Arthur. All the Russian soldiers have, it is said, left Port Arthur for the front and only three large ships and a number of small ones remain in the harbor.

The Chinese are unable to explain what has become of the other large ships.

**WATER TURNED INTO BLOOD.**

Tokio, June 9.—The Japanese soldiers wounded in the battle of Nanchang have arrived here and give vivid details of the fight back of Kinchow. They say the armies were waist deep in water and a hand to hand encounter occurred all along the line. When the Russians retreated the water was crimson with blood.

**JAPANESE REPULSED.**

London, June 9.—A dispatch from Liao Yang says:

The Japanese, June 8, according to Chinese reports, made several sustained and stubborn attacks on Port Arthur simultaneously by land and sea. They were repulsed with severe loss.

The position of the Japanese in Kwan Tung is said to be precarious.

**JAP VESSELS REPAIRED.**

Tokio, June 9.—The Japanese cruiser, torpedo destroyers, two gunboats and five torpedo boats damaged during the various engagements about Port Arthur have been repaired and are at Saabogone in the region Togos fleet.

**WRECKS OF VESSELS FOUND.**

Tokio, June 9.—A report from Admiral Katarok says that while engaged in clearing Tallienwan bay of mines the Japanese came across the wrecks of two sunken vessels identified as the cruiser Boyard, sunk February 14 and the Nonni. The Nonni does not appear on the Russian naval list.

**EXPLOSION ON CRUISER.**

Paris, June 9.—A telegram from Sebastopol reports that a serious explosion, supposed to be malevolence, occurred aboard the cruiser Smolensk.

## COAL DEAL

MR. RICHARD MORGAN MAY  
LOCATE NEAR DAWSON, KY.

Mr. Richard Morgan, formerly superintendent of the Louisville division of the Illinois Central, was in the city again today. Mr. Morgan is interested in a big coal land deal up near Dawson, and may locate there. He has been up looking over the field and is much pleased with it.

## THE STATE MACHINE HAD THREE TO ONE

Gov. Beckham Had Votes to  
Throw Away.

Democratic Delegation Sent Unin-  
structed—Blackburn, McCreary, Beck-  
ham and James the Big Four.

CRUSHING DEFEAT FOR 'ANTIS'

Louisville, Ky., June 9.—Governor J. O. W. Beckham and the administration faction completely routed the Blackburn-McCreary-Kehoe opposition and defeated them in every detail in the Democratic state convention.

Governor Beckham was elected temporary chairman over Frank Peake, the anti-machine candidate, by a vote of 817 to 322, and with the assistance of his majority the delegates organized the convention, framed all the resolutions, dictated the policies, named the officers and committees and completely dominated the assembly.

Senators Blackburn, McCreary, Governor Beckham and Congressman Ollie James were elected by acclamation to be delegates-at-large to the national convention.

At the very end of the convention the matter of instructing or not instructing the delegation to the national convention was brought before the consideration of the delegates.

The committee on resolutions, headed by Senator McCreary, reported against instructions.

Judge John M. Lassing, of the Sixth district, offered a resolution in amendment that the convention recommend, not instruct, for Parker for the nomination.

Congressman Sherley championed Lassing's resolution.

Then arose a tremendous howl from a great majority of the delegates.

The plea of Sherley for instructions was howled down. The sentiment was preponderating. The chance for instructing for Parker was nil. The convention was more inclined to instruct for McCreary, although the prevailing spirit was that the delegation should use its own best judgment which was ordered.

The fight against the administration was led by Senator J. O. S. Blackburn, assisted by Senator McCreary and Congressman Hoke Smith. When the convention opened State Chairman Allice Young made a speech in which he attacked the methods of the administration's workers, but disclaimed any personal animosity toward Governor Beckham. At the close of Chairman Young's speech Congressman Ollie James, acting for the administration men, placed Governor Beckham in nomination for temporary chairman.

Congressman James' speech was the forerunner of an enthusiastic reception given United States Senator Blackburn when he took the floor to nominate Judge Peake as the candidate of the anti-administration men for temporary chairman. Senator Blackburn made a remarkable speech. Disclaiming any idea of making war on individuals, he yet asserted that the Democratic party in Kentucky was falling into the grasp of a machine and out of control of the voters. He declared that he and his associates would contest to the last the effort of the administration men to elect Lewis McQuown chairman of the state central committee.

The resolutions condemn "the unnecessary and unjust system of federal taxation maintained by the Republican administration, and demand a revision of the tariff in a conservative spirit. The increase of expenditures of the federal government under Republican rule is condemned and the encroachments by the president upon the constitution are denounced. The resolutions further favor the regulation of trusts and recommend a thorough investigation of all federal departments on the ground that the refusal of the Republicans to permit further investigation of the postoffice department suggests hidden corruption. The course of Governor Darbin

## MINER'S OFFICIAL ORGAN DESTROYED

More Violence in Colorado Last  
Night.

A Pitched Battle Fought Yesterday  
Afternoon and One Union  
Miner Killed.

A FEW MORE OFFICIALS RESIGN

Victor, Colo., June 9.—The office of the Victor Record, organ of the Western Federation of miners, was wrecked last night by eight masked men armed with guns and sledge hammers. The employees were ordered to throw up their hands, and the intruders proceeded to wreck two linotypes and several job presses, all the equipment of the office. They then marched the employees out and ordered them to leave town.

**ONE MINER KILLED.**

A pitched battle between the military and union miners was fought at Danville, the new mining camp thirteen miles out of Victor, shortly after 4 o'clock yesterday afternoon.

John Carley, a union miner, was killed.

The troops returned to Victor with fourteen captives.

It was reported before the special train left Victor for Danville, bearing the force under General Bell, that the miners in the hills, about Danville numbered about 250 men and that it was their intention to march into Victor in a body and attempt to liberate by force the inmates of the temporary bull pen at Victor. The force actually consisted of but 21 men, the statement of one of the number that was taken captive.

The train proceeded to the immediate vicinity of Danville without unusual incident. The officers emerged from the out and were greeted with a volley of shots. Deputies returned the fire to the best advantage possible and promiscuous shooting was engaged in for a period of ten minutes.

General Bell recognized that the strength of the miners had been overestimated and divided the deputies and soldiers into seven detachments and these set out to make a complete cleanup of all the surroundings hills. Ten were taken prisoners, several being released later.

**MORE OFFICIALS RESIGN.**

Three more Victor city officials have been forced to resign. They are: Justice of the Peace Thomas and Aldermen Murphy and Tobin.

Police Magistrate Michael Gibbons, who refused to resign, was made a prisoner at Victor military armory.

Frank J. Bangs, leading attorney of the Western Federation of Miners, has been warned to leave.

In all about 200 union members and sympathizers have been arrested by the sheriff and military since Monday. Twenty-eight of these have already been deported. The remainder are imprisoned in the jails, Victor Armory and the Cripple Creek Mining Exchange hall under military guard.

In addition to the unearthing of about thirty group photographs of non-union workmen at various mines, it is alleged that in the office of Altman Union were found quantities of electrical fuses and batteries.

Talk of lynching or violence has subsided to a degree.

**QUIET AT CRIPPLE CREEK.**

Cripple Creek, Colo., June 9.—The district is again quiet after Wednesday afternoon's exciting events. No further trouble is expected. The militia and 2 deputies are in charge of the camp.

H. A. Simmons, of Evansville, Ind., age 21 and Lettie Pierson, of the city, age 21, have been licensed to wed. It will make the first marriage of both.

In Indiana "refusing to surrender on requisition from the governor of Kentucky, the persons of William S. Taylor and Charles Finley, fugitives from justice, charged with the murder of William Goebel," is denounced as a violation of the constitution.

## DOUBLE TRACKS FOR BROADWAY

The Street Car Co., Makes Good  
Proposition.

Offers to Widen the Streets and Pay  
For the Ground—Will Also Put  
Up Iron Poles.

THE BOARD OF PUBLIC WORKS

The board of public works met last night and remained in session until after 11 o'clock. Much routine work was performed, all reports from Street Roller Fireman Book Roberts, City Engineer L. A. Washington and Street Foreman Jim Eaker being carefully read, and the expenses of the city in the different departments carefully audited.

The most important matter brought before the board last night came in the way of a proposition from the Paducah City Railway Co. which wants to widen Broadway from Fifth street out as far as the brick street improvements go, to Ninth street, and double track.

The communication was received and filed but no action taken. It will be taken up the next meeting and probably something done with it.

The plan of the street car people outlined to the Sun this morning by General Manager G. O. Wallace, is to cut off two and a half feet from each pavement and widen the street five feet. This will enable the company to double track, make a prettier street and greatly dit to the facilities of the company and prepare for the time when Paducah becomes a large city.

Mr. Wallace stated that his proposition carried with it an agreement on the part of the street car company to pay for the extra five feet. This will mean an expenditure of much money and in no way will the city have to stand any expense of the extra five feet of street built.

This will cut out the pavements down from 12 to nine and a half feet which is said to be wide enough, as many cities of 100,000 inhabitants have only nine and a half feet pavement. The company will eventually double track to Wallace park, Mr. Wallace stated, and he hopes that it will some time be possible that Broadway is again reconstructed from Fifth to the river front, the company will be able to put in double track to the river.

The board did not take up many matters last night because the solicitor was not up with the work. One ordinance they are anxious to get through is that preventing the sweeping of trash onto the brick streets, and also one requiring pipes drained into the sanitary or storm water sewerage, and all pipes along streets to be reconstructed relaid.

The trash ordinance was ordered many weeks ago, but has ever yet been drawn.

It is not generally known that all ordinances relative to public improvements now have to pass through the hands of the board of public works and be approved by them.

The board has decided on an ordinance to put wires underground wherever streets are reconstructed, and thinks it will do much towards abating the pole nuisance. The street car company has already signified a willingness to place in iron poles along reconstructed streets having street car lines and also wherever new poles are hereafter necessary.

The iron poles are not only less unattractive, but it requires but there of them to a block.

The board is now investigating the matter of sanitation, and desires to stop the draining of water from bath tubs and kitchen sinks into the gutters in the sewerage district. In some places conditions are described as being fearful. The board recently went to one property owner in the heart of the city and gave him his choice of connecting with the sewerage or being fined 24 hours for maintaining a nuisance. He wanted a

## COAL MINES SOLD UP ABOUT DAWSON

A New Concern to Begin Devel-  
oping Land.

La Center College Begins—Tragedy  
Near Hickman Still Creates  
Much Talk.

OTHER LATE KENTUCKY NEWS

**A BIG DEAL.**

Madisonville, June 9.—Perhaps one of the largest coal mine deals ever made in this county has just been completed, Mr. L. E. Haydon, of Hopkinsville, selling to William Lynch, of Dawson, two coal mines, a big company store at Mannington and the town site of Mannington, and, in addition to this, about 1,200 acres of fine timber and mineral lands in and around Mannington.

The consideration is not known, but it is believed the purchaser paid something near \$100,000 for his newly acquired property.

Mr. Lynch will place mills on the land to work up the timber and will soon have both in operation. He will also lay off a new town at Mannington and open it for settlement.

**LA CENTER COLLEGE.**

La Center, Ky., June 9.—Nearly two hundred thousand bricks are now piled on the college campus and work men began there Monday to break the soil for La Center college.

**STILL TALK OF TRAGEDY.**

Hickman, Ky., June 9.—Excitement is yet intense over the Scarce-Mayes murder, committed Sunday morning at Cayce, nine miles distant from Hickman, in which R. E. "Dick" Scarce shot and almost instantly killed Ellis Mayes. The trouble, it is reported, grew out of an old family difficulty, in which three years ago, Will Watson, a brother-in-law of Scarce killed Jo Treas, who was a brother-in-law of Mr. Mayes, who was killed Sunday.

A short time ago Ernest Treas married Mary Naylor and strenuous objections were raised by the bride's parents on account of her age. In this affair Mr. Scarce took sides against the Treas faction, and this tended to renew the old feeling.

**TOBACCO IN HOPKINS.**

Madisonville, Ky., June 9.—From the best that can be learned, there will be something like a half crop of tobacco planted in this and adjoining counties of the tobacco belt. The farmers are greatly discouraged, and even if they had desired to plant a full crop they could not have done so, as there is a scarcity of tobacco plants.

**BURIED IN MARSHALL.**

Benton, June 9.—The remains of Blant Heath, twenty years of age, were interred at the Birmingham cemetery. He died of acute dysentery at Coffeyville, Miss.

**A BIG BAPTIZING.**

Mayfield, June 9.—Tuesday night at the Baptist church in this city, 108 persons were baptized into the church by Elder A. S. Pettie. It required several hours to complete the work and the hour hand of the clock had passed the 12 o'clock mark before the services were over.

week, but he was not given an hour over the 24. Inside of two hours workmen were at work laying the pipes. The board thinks all necessary is a little "persuasion" of this kind. The people do not drain their slops and filthy water into the gutters because they are too poor to connect with the sewerage, one member stated, but because they don't want to connect and are not made to. The board hopes to get some needed ordinances along this line in the near future.

A great deal of work will be done as soon as the board gets the necessary legal papers and opinions. Last night he only opinion from the solicitor brought before the board was that the property owners must pay for all sidewalks, whether original construction or reconstruction.

Ambassador McCormick's Family Do-  
sirs of Leaving Russia.

Berlin, June 9.—Reports from reliable sources state that American Ambassador McCormick is being severely persecuted by St. Petersburg society because of American sympathy for Japan.

He has been residing in Leuchtenberg Palace, a magnificent residence, but has received notice to move. Society, according to a report is boycotting Ambassador McCormick's family in every possible way.

Mrs. McCormick is quoted as expressing a desire to leave Russia as soon as possible.

## We Are Like Machinery.

A small defect will if not speedily and immediately remedied render useless and powerless the most wonderful pieces of mechanism. The engine that supplies power for your every exertion is out of repair. This may truthfully be said of nine out of ten persons.

Your digestive organs are the machinery that you should keep constantly in repair. Neglect in this leads to complications that are almost impossible to correct. Biliousness, Nervous Headache, Belching and Heart Fluttering will never be known to you if you keep your digestive organs in perfect condition and your bowels clean and regular. Dr. Caldwell's (Laxative) Syrup Pepsin does this. It is guaranteed to do this for you, the children or the grandparents. Get a trial bottle, then you will know the truth and will always use this famous remedy. Your druggist sells 50c and \$1.00 bottles.

## SOUR STOMACH?

**Blood Wine Cures It Instantly.**

"Blood Wine" will sweeten a sour stomach the moment it touches it. It will stop the rising of gases, froth, sour or greasy juices, will overcome a feeling of nausea or emptiness, or as if a rock were lodged in the stomach. It will tone up the stomach and digestive organs and arouse the liver and bowels to healthy action. I have seen a man who suffered with dyspepsia for years, who couldn't eat anything without pain, sit down to a meal of baked beans and pork after he had taken two bottles of "Blood Wine," eat heartily and get up from the table without the slightest suggestion of any discomfort. In his case the two bottles had entirely cured him. Tens of thousands of cases of obstinate indigestion have been entirely cured by Blood Wine in from one to six weeks.

Arthur J. Sanborn, 186 No. Main Street, Concord, N. H., says:

"I was first taken with indigestion, and this was followed with bloating. Doctors pronounced it nervous dyspepsia. I concluded to try Blood Wine, and I couldn't begin to tell you what a change there has been. Blood Wine has been of the greatest benefit to me."

Mrs. A. M. Bartlett, 46 Wellington St., Worcester, Mass., says:

"I have been troubled with nervous indigestion for several years. Have taken several bottles of Blood Wine with the very best result. Can willingly recommend it to all suffering from stomach trouble."

Paducah fans were disappointed for a time last night by news from Clarksville that Paducah had been defeated.

Later on, however, it was discovered that the operator made a mistake and that it was Paducah that won instead of Clarksville. McGill is getting in form and is one of the best in the league.

McGill's wing is getting "right" he says and all the soreness is fast leaving it. He is pitching good ball.

Paducah's aggregation of ball players is not only distinguished for fastness of the players but for "heady" work. In the heady work Violet, Gilligan and Potts play an important part.

Paducah's base running is a feature of every game. Few people try to steal on the "big man," however, and when Paducah Indians are out for scalps, their opponents have few stolen bases to their credit.

## NOT SHAMMING

FIREMAN WAS UNCONSCIOUS, BUT HAS NOW RECOVERED.

Luther Lloyd, the I. C. fireman who fell from his engine at Boaz Station Tuesday night, has recovered from his unconscious state and is at home on West Kentucky avenue near 13th street.

Lloyd was unconscious nearly twenty-four hours after the accident but did not seem to be seriously injured. The doctors pulled his hair, slapped him in the face and stuck pins in him to see if he was shamming, but he never flinched. Last night when he recovered, got out of bed, still dazed, and did not know what had happened until he was told he fell from his engine.

Lloyd went home last night and thought to be uninjured. The report that Lloyd was shamming insensibility is given out as erroneous by the railroad physicians.

### FUNERAL THIS MORNING.

The funeral of the late Julius May, of Cairo, took place this morning at the residence of his brother-in-law, Mr. Herman Wallerstein, on North Seventh street. Rev. David Alexander, of Temple Israel, conducted the service and the burial was at the Jewish cemetery under the auspices of the Rest Men of this city. The pallbearers were: Messrs. Lee Schwab, E. Fels, Julius Friedman, R. Weille, Samuel Levy and Joseph Ullman.

## GOES ON THE ROAD

FORMER YARDMASTER NEWLIN ENTERS THE TRAIN SERVICE.

Mr. B. F. Newlin, formerly general yardmaster for the local Illinois Central, has accepted a position in the train service of the road and will run a freight train on the Paducah district.

Mr. Newlin went out on the road yesterday with Trainmaster Henry Scherzing and Chief Dispatcher J. T. Cheek on an inspection of the district. The party will go as far east as Central City, the first inspection by the chief dispatcher and trainmaster in several weeks.

Mr. Newlin has turned the yard business over to Yardmaster Stonebraker who has now full charge and control of the local terminals.

## ELEVEN DERAILED

FREIGHT WRECK ON THE LOUISVILLE DIVISION YESTERDAY.

An extra north bound freight train, engine No. 3, was wrecked at Stephensburg, on the Louisville division of the road several miles north of Central City yesterday afternoon but no one was injured.

The train was in charge of Conductor Boren and Engineer Strickland and a broken flange in the middle of the train caused the accident. Eleven loaded cars were derailed and smashed up and traffic was delayed for more than six hours. The afternoon train from Louisville, due at 6 o'clock got here at 3 this morning and all north and south bound trains were thrown out of the schedule time also.

## FOR JANITOR

JUNE 25 THE DATE APPLICANTS MUST APPLY.

The United States Civil service commission announces an examination on June 25, 1904, to secure eligibles from which to make certification to fill a vacancy in the position of janitor in the United States courthouse and postoffice building at Paducah, Ky., at \$600 per annum and other similar vacancies as they may occur in the Custodian service in that city.

No educational test will be given, and it will not be necessary for applicants to appear at any place for examination. Age limit 21 to 50 years.

Applicants should at once apply to the secretary of the board of examiners at the postoffice at either Paducah, Ky., or Cincinnati, O., for application form 1052.

## QUARTERLY COURT

TWO CASES DECIDED BY JUDGE LIGHTFOOT TODAY.

County Judge R. T. Lightfoot this morning tried two cases on the quarterly docket.

In the case of J. D. Smith against Steve Menard, for \$50 on account, a judgment was filed for the defendant.

In the case of Smith & Scott against Major Pritchett, the prayer of exemption was sustained and the attachment discharged. Pritchett had been garnished for \$30 in a lower court and the judgment appealed. Judge Lightfoot reversed the decision of the lower court.

Mr. Wheeler also asked for gables to correspond with the old portion of the postoffice, but the funds had been drawn lower than the superintendent was aware of and the gables will not be put on.

## BOILER MAKERS ARE STILL OUT

They are Well Behaved and Disposed to be Fair.

The Railroad Officials Declare That the Union Has Violated Its Agreement.

### THE I. O. ISSUES A STATEMENT

The strike inaugurated by the I. O. boiler-makers yesterday has not been so general, many men refusing to strike while some who did, returned to work later in the day. The boiler-makers here, however, have not returned to work and say they will not unless the order for the strike is countermanded by the executive committee in Chicago.

This morning Mr. H. C. McCourt, assistant general manager of southern lines of the road; Superintendent A. H. Egan, Roadmaster F. L. Thompson, of the Louisville division, Master Mechanic R. J. Turnbull and Traveling Engineer Lloyd Grimes held a conference in Master Mechanic Turnbull's office and discussed the strike.

Mr. Egan stated this morning that the provisions of the agreement made with the boiler-makers when the last increase was granted had been violated, and that as far as he could learn the strike was unauthorized inasmuch as the men had refused to strike at Evansville, Louisville, Central City and Jackson, Tenn., and other places. At Mattoon, Ill., and Memphis, Tenn., the men have returned to work. The following extract from the statement issued by Second Vice President J. T. Harahan explains this point:

"In the agreement which was made with the boiler-makers on June 5, 1903, was the following provision: 'This agreement to take effect June 1, 1903, and remain in effect for one year and thereafter until thirty days notice shall have been given by either party desiring a change.' It will therefore be seen the position of the committee in taking any action prior to July 1 is clearly a violation of the above provision of their agreement. It is unfortunate that radical action has been counseled by the committee, considering that under our pension system, many men will be deprived of the benefits which they, otherwise, would enjoy; as well as being unfortunate in many other respects, considering the general business conditions of the country.

"The object of this statement is to set forth the position of the company, that all classes of employees may fully understand the situation."

Master Mechanic Turnbull stated that no trouble with the strikers here was anticipated and that all reports that they would likely cause any trouble were erroneous. The boiler-makers met last night with Mr. H. McCourt and talked the matter over for more than two hours and promised to remain off the railroad property as long as unemployed by the company.

The boiler-makers have no statement to make other than that they will remain out until the matter is settled one way or the other. The local boiler-makers are simply acting on the orders of the executive committee but will hold out and not do like others have done, they say, in Mattoon and Memphis, by returning to work.

The statement in brief made by Second Vice President Harahan is as follows:

Illinois Central Railroad Co.—Office of Second Vice President—Chicago, Ill., June 8, 1904—Bulletin Order No. Special—All Employees: The boiler-makers of the system made a written request for a large increase in wages, ranging from 18 to 30 per cent. or an aggregate of about \$100,000 per annum. The matter was thoroughly considered by the management and on May 21 a written reply was given the

boiler-makers, showing cause why an increase in the present rates of pay could not be granted. On June 2 the committee called upon the superintendent of machinery, again presenting their original request. The same answer was given them as on May 21. In the reply made by the superintendent of machinery he showed that the rates that this company is paying boiler-makers are the highest rates paid and in excess of most railroads in the Illinois Central territory.

Practically all of the requests made by the boiler-makers contemplated a direct or indirect increase in the company's expenses. Among the increases requested was an increase in pay from 34 cents and 36 cents to 42½ cents per hour, from 35 cents and 37½ cents to 44 cents per hour, a large increase in the amounts to be paid apprentices; notwithstanding the fact that the rates now paid are in excess of the rates paid by leading roads. Also a pay time and one-half when called upon to work away from home, they now receiving full time for traveling and when engaged in work in single time hours, and time and one-half during the over time hours, together with their actual expenses.

The officers of this company have always been willing to meet its employees and to fully and freely discuss with them any and all questions affecting their wages and conditions of employment; this is demonstrated by the fact that in the years 1901, 1902 and 1903, large increases were granted to all shop men. At the time these increases were made were such as seemed to justify the increase granted. For the month of May our earnings have decreased over three hundred thousand dollars and the large increase in expense in that month will make a still further reduction in the net earnings for the fiscal year. It is a well known fact that railroads throughout the country have been compelled to largely reduce force in all departments and, in many instances, have put their shops on eight hours per day and five days per week because of decreasing earnings; also that the question of increase in wages is not being considered by any one. It is also well known that, more or less, roads have made agreements with boiler-makers on basis of last year's rates; the men fully realizing nothing greater could be expected under the existing business conditions. These facts and figures were presented fully and carefully to the committee in the same manner as they have been presented to other committees of our employees, who have accepted the conditions and have settled on the basis of last year's figures, realizing that we were not in position to make any further increases. The committee, however, has arbitrarily taken the position that they will not accept our proposition and have called their members out on a strike, some of whom have responded.

"The object of this statement is to set forth the position of the company, that all classes of employees may fully understand the situation."

## RASPBERRIES HERE

WATERMELONS AND CHERRIES ARE ALSO ON THE MARKET.

Raspberries and water melons are the latest additions to the market. The raspberries are home grown, and sell reasonably cheap for this early in the season.

Strawberries are getting scarce, but are still cheap.

The water melons are shipped in from the south, and are not very plentiful. Few people care to eat them this time of the year.

Ripe cherries have been on the market for sometime at \$1.75 a crate and cheaper.

Berry growers predict a long run of raspberries this year, as the season has been very favorable for their production.

### HEARST IN THE LEAD.

New York, June 9.—Figures given out from Hearst headquarters in this city represents him as leading all candidates for the Democratic presidential nomination in the number of pledged delegates, Hearst having 180 to Parker's 175 and Gorman's 42. Olney, of Massachusetts, and Wall, of Wisconsin, bringing up the rear with 26 each.

## NO TROUBLE.

BANK STOCK WILL BE DELIVERED TO PADUCAH MAN ALL RIGHT.

"Published reports to the effect that there will be a fight made against the sale of a majority of the stock in the Western Bank to W. B. Smith, of Paducah, are absurd," said Christian Stege, president of the Western Bank, according to a Louisville Herald reporter. "If Mr. Henry and I choose to sell a portion or all of our stock to Mr. Smith it is our business. The stock is ours and it does not make any difference whether the holders of other stock are pleased with the sale or not."

The agreement reached by Mr. Stege, F. A. Heary and W. B. Smith has been signed, and Mr. Smith has been deposited a 10 per cent guarantee in the Fidelity Trust company. The deal is practically closed, and is only being delayed until July 15 in order that Mr. Smith may arrange his affairs in Paducah so that he can come to Louisville to remain permanently.

John Hetterman, the largest individual stockholder in the bank, is said to be opposed to the sale, but he will make no active opposition.

## ORDERS EXPECTED

SOMETHING WILL BE DOING FOR THE SOLDIER BOYS SOON.

The order to confine in jail those militiamen who have not paid their fines is now expected in a short time in Paducah, as the Democratic convention is over. The administration did not intend to make anyone mad by putting the boys in jail before the convention, but now as it has everything it wants, it will proceed to discipline the boys as soon as the orders can be prepared and forwarded.

## ANNOUNCEMENTS.

For Congress.

Hon. J. C. Speight, of Graves County.

## DAILY THOUGHT.

If in the common things that round us lie there is not the material we need to build us up into the stature of a perfect manhood, then we shall find it nowhere under heaven's cope.—Chadwick.

## THE WEATHER.

Partly cloudy tonight. Friday showers.

Former United States Senator Lindsay thus speaks of the party that so often honored him, but with which he long ago became disgusted: "What is the Democratic party today? Who is going to St. Louis to act solely for the good of the party? Name me one man who is going there with first thought for Democratic success, in spite of all thoughts of personal interest. It is hard to tell which is doing the greatest harm to Judge Parker's candidacy, Grover Cleveland or David B. Hill. I thought some months ago that Parker would be the nominee but now I have grave doubts on that score. I think Cleveland is for him, but we all know Hill is for David B. Hill first, last and all the time."

City officials claim that none of the money paid for licenses illegally collected can be recovered by those who paid. This is probably a new principle of law discovered by the legal lights of the administration. Their view of what the law is, however, is usually the best argument that could be advanced of what the law is not. Judge Reed, in his opinion on the city license ordinance, thus disposed of the city's argument in the case: "The argument in the brief of the city solicitor is so palpably erroneous, that it requires no counter argument." When the city's argument receives that kind of a rap from the presiding judge it seems foolish to talk of appeals.

The anti-machine Democrats in Kentucky had their balloon punctured, but the hot-air did no harm. It simply escaped and left them looking foolish. They didn't have half as many votes as the opposition, and their utter failure spells the political doom of many an ambitious politician. The anti-machine Democrats will never defeat the machine, because there are not enough of them in Kentucky.

There is one thing that makes Democrats in Kentucky tell the truth, it is nothing else does. That is to fall out with the gang. Jo Blackburn said in a speech in the convention yesterday that "Beckham received 400 votes less last fall than he did against Yerkes. He said that."

colived with Beckham's 26,000 majority, as the Republicans stayed at home. He declared therefore that the Democrats only had a margin of 5,000 votes."

The opening gun of the '04 campaign was fired in Oregon, and it was heard all over the country. The two congressmen elected are Republicans, and they were elected after a hot campaign in which President Roosevelt was the issue. The result is most satisfactory to Republicans, for it indicates a large majority for President Roosevelt in November, not only in Oregon but in other states as well.

The world's fair is having its troubles,—all kinds of them from the petty quarrels arising from jealousy and spite and the larger ones from the inevitable graft, to the gentle reminder from Uncle Sam that the four million, six hundred thousand will soon be due. Later on the cry will go up, "what went with all the money?"

The Democrats who are wont to boast of their overwhelming strength in the First district must feel mighty small to see themselves ruthlessly run over by a few politicians. Democrats may run the politics of the district, but a few slick politicians run them, so they have very little to be proud of, after all.

Colorado doesn't have much prospect of peace as long as the union and non-union miners, the mine owners, the citizens' alliance, and the military are all hunched together. The government ought to throw open the state to civilized settlers after all the dynamite has been used up.

The Democrats of the First district will have Colonel Mott Ayers, of Fulton, to howl down before for four years more. Perhaps by that time they may be free, as there will not be much left of the Democratic party then.

Russia may feel that she is having a rocky time of it in the far east, but she can console herself with the knowledge that she isn't in Colorado.

General Percy Haley's name didn't appear prominently in the convention reports. We fear Kentucky Democracy is on the down grade.

That fight Jo Blackburn boasted of making didn't materialize. The machine came sailing by and he simply got out of the way.

Mr. Hearst now has more instructed votes than Judge Parker, and no Democrat has enough to win. It is still anybody's race.

It seems to be a weakness of human nature to have more confidence in one lawyer's opinion than suits us, than in half a dozen that don't.

About all the rank and file of Democracy in this end of the state care to say of the convention is that it went Democratic.

The way the war in the far east is written up in history depends on which side applies the censorship.

If municipal trouble were concrete there would be enough to fill all the holes in the streets.

The Democratic national campaign is bringing forth many a voice from the grave.

Governor Yates didn't decapitate but six officeholders yesterday.

Ollie James ought to be glad he wasn't too big to get into the band wagon.

Curtis Jett has gone to work—but not at his old trade.

JUDGE SANDERS TAKES A VACATION—JUDGE CAMPBELL PRESIDES.

Police Judge D. L. Sanders and Mr. James Sherrill went across the river this morning to enjoy a day of fishing. In Judge Sanders' absence Attorney James Campbell, Sr., acted as special judge and disposed of six cases this morning.

Ike Honnaker and May Norman were fined \$20 and costs for immorality by confession.

Thomas Fitzgerald, colored, charged with a breach of the peace, got a continuance until Saturday.

The case against the negro Henry Minor for assaulting Officer James Crow was continued until the 13th.

The case against Joe Smith, colored, for jumping on and off trains, was dismissed.

The case against Frank Moore, a stranger, for petty larceny, was dismissed. He was charged with stealing from a steamboat man.

Joe McClure, colored, was fined \$5 and costs for a breach of the peace.

Claims the Failure of Owensboro Contract to Furnish Material Damaged Him \$2,694.89.

## BUILDING GREATLY DELAYED

Mr. W. H. Bailey, the contractor of the addition to the government building today filed suit in circuit court against the Southern Foundry Co., of Owensboro, for \$2,694.89 damages for breach of contract.

The petition is lengthy and itemizes every expense incurred by failure of the defendant to comply with its contract with the plaintiff. The total amount of damages estimated in the petition aggregates \$3,329.95 but the price paid the foundry company for furnishing material amounting to \$2,635, was deducted from the total damages leaving a balance of \$2,694.89.

Contractor Bailey contracted to build the addition and in turn let a sub contract to the defendant to furnish all the iron and steel work. He claims the material was to be delivered in thirty days, but was several months getting here. It delayed him over three months and after it was put up, was discovered to be incorrectly made and alteration had to be made which costs a great deal additional.

For the damages in engaging extra men in taking down the iron after it has been placed in position, for damage to material and equipment by reason of exposure to the weather during the winter months, and various other losses, the plaintiff sues for the above amount.

The addition would have been finished but for the delay. It is understood the foundry was damaged by fire, causing the delay.

## THREE WERE HURT IN CAR COLLISION

A Depot Line Car Strikes a Jackson Car.

Mr. and Mrs. W. T. Houser and Joe Woolridge Painfully Hurt.

## CARS WERE BOTH WRECKED

There was a street car collision at Ninth and Jackson streets shortly after 11 o'clock last night in which three persons were injured and both cars damaged considerably. The cause of the accident is attributed to the fast running of Motormen Hall, who was in charge of the depot car, and who ran into the Jackson street car.

The cars which collided were No. 101, Motorman M. L. Hall, Conductor Pate Greaves, and 62, in charge of Motorman J. M. Carnehan. The Jackson street car was making a "show trip" and also was the depot line car. Both were going rather fast, but the No. 101 running a little faster than the smaller car which was struck in the middle and knocked off the track. Windows were smashed and the passengers scattered about the cars. Mr. W. T. Houser and wife and Mr. Joe Woolridge were injured, but Mrs. Houser is the only passenger who seemed to have been seriously hurt. She was unconscious for several hours after the accident. Woolridge was standing on the back of the smaller car and was knocked off and under the car. His back was bruised but he is not seriously injured. Mr. Houser escaped with slight bruises.

The cars were taken to the "street car shed" today for repairs and it will require several days to patch them up again.

Later developments show that Miss Nellie Grassburn, who lives with her sister, Mrs. Cheek Davidson, of South 10th street, was also injured in the smashup. Her eyes were both bruised, nose skinned and knee bruised.

## A HOT OLD TIME IN EGYPTIAN CITY

Resolution to Investigate Cairo City Officials.

Attempt to Disqualify the Mayor—No More Gamblers There, It is Reported.

## MORE ARE YET TO COME

Cairo, Ill., June 9.—The city administration is in a turmoil over an effort to oust the mayor and several other city officials for selling supplies to the city contrary to law.

The chief of police at Tuesday night's council meeting reported that the city was free from gamblers, and Alderman Meehan accused Chief Price of telling a St. Louis gambler that the effort to rid Cairo of gamblers was "only a bluff," and pulled an affidavit from the St. Louis gambler to the effect.

Alderman Meehan created more of a stir by a resolution, which was in substance:

Whereas—The city charter of the city of Cairo makes it unlawful for any city official to be interested in any contract or purchase to which the city is a party, and

Whereas—Mayor Winter, as a member of the firm of "Winter Bros." and Alderman Nellis of "The Delta City Coal Co." were interested in such transactions and purchases

Resolved—That the mayor is hereby directed to appoint a committee of one alderman from each ward whose duty it shall be to investigate and report to this council whether or not the officials named are disqualified from holding their respective places as officials of the city.

It was the sequel to other proceedings instituted by Alderman Meehan at the former meeting of the council, which called for a report from the city attorney and ordinance committee regarding the legality of purchasing supplies of the city from an official of the city government. This proceeding had special reference to the claims of Winter Bros. for ice and of the Delta City Coal company (Alderman Nellis) for coal. Both came up at the meeting of the council three weeks ago. It was known then that the report of the city attorney and committee with respect to the purchase of supplies, declared it clearly unlawful for any city official to be concerned therein.

The mayor first announced the resolution defeated, but as it had six votes to five against it such a howl was raised he declared it carried, and the investigation will take place at once.

Another large crowd was out at Wallace park last night and enjoyed "A True Kentuckian." Tonight "Woman Against Woman" will be repeated by request. The company is doing a fine business since the weather became so warm.

## IS DISAPPROVED

The President Says Strike is Without Authority.

Prospects For a Settlement of the Strike are Now Brighter.

This morning local officials received a telegram from Wm. Renshaw, superintendent of machinery of the I. O., saying that he had received the following telegram this morning:

"William Renshaw, Superintendent of Machinery of the I. O., Chicago, Ill.—Boilermakers on the I. O. system stopped work without any authority. I do not approve of the coming out and will not support it. Signed: 'JOHN O'NEILL, President of the Boilermakers, Iron Workers and Ship Builders of America, New York City.'"

Mr. Renshaw instructed the local officials to see that the local strikers understood this, and at noon a committee meeting was held with them and the matter discussed. The committee from the strikers could do nothing, however, the members stated and nothing resulted from the conference. The local conference was between the strikers, Assistant General Manager H. M. McCourt, Superintendent A. H. Egan and Master Mechanic Turnbull.

AMPUTATION OF LITTLE JAS. ENGLISH'S LEG WILL NOT BE NECESSARY.

A slight operation was performed by Dr. W. P. Rose, of Madisonville; Dr. J. G. Brooks and Dr. J. D. Robertson, of this city, on the leg of little James, son of Mr. and Mrs. J. E. English, this morning, at their home on Fountain avenue.

No diseased bone was found as it was feared there would be, and amputation will not be necessary. The many friends of Mr. and Mrs. English will be glad to know that the operation is not more serious.

## AGED WOMAN DEAD

SHE CLAIMED TO BE OVER 100 YEARS OLD.

Ann Marshall, colored, known as "Mother Ann," died in a small house in the rear of the colored Baptist church on Washington street this morning about 10 o'clock of old age. She is said to be over 100 years of age but she does not appear to have been older than 80 years. The burial will take place tomorrow. No known relatives survive her. She claimed to have been 12 years old during the Revolutionary war, which would make her close to 180.

The McCracken County Medical society met yesterday at Heaton. Dr. Z. S. Holland read an interesting paper. Dr. Johnson Bass, of this city, was appointed chairman of a committee of honorary members. The next meeting will be held at Bass' Grove, near Lone Oak the second Wednesday in July.

The physicians in attendance were: Drs. Frank Boyd, Lillard Sanders, Johnson Bass, P. H. Stewart and Horace Rivers, of this city. Drs. S. Z. Holland, T. E. Moss, Gore Rudolph, Kimbrough, of the county, and Dr. C. A. Elliott, of Ballard county.

## UNDECIDED NOW ON ITS ACTION

The City May Appeal License Decision.

The Legislative Boards Are Expected to Direct the Solicitor.

There is talk among members of the general council of appealing the decision of Circuit Judge Wm. Reed in the Katterjohn case decided against the city yesterday.

The opinion cites a similar case which went up from Covington, Ky., and which was decided against that city. The opinion of Judge Reed is simply a copy of the opinion of the court of appeals briefly outlined, and the attorneys say it would be folly to appeal this decision as all the higher tribunals would do would be to affirm its previous action.

City Solicitor Puryear will not appeal the case unless he is instructed to do so by the boards, but there are some few members of the boards who think the case should be taken higher. It is not known what will be done in the matter until the council and board of aldermen receive an official report of the opinion.

## NO WRECK

REPORTS OF ONE FREELY CIRCULATED IN THE CITY, HOWEVER.

Illinois Central officials are unable to account for the reports of a serious wreck on the Louisville division of the road. All day it has been reported that there was a wreck on the road and several people killed, and a Chicago and a Louisville paper telegraphed for a story on it, indicating that the report must have been pretty extensively circulated.

There was no truth in it, however. Chief Dispatcher Cheek, at the local dispatchers' office, received dozens of inquiries from all over the city, and did everything possible to trace the story back to its origin, but to no purpose. The only foundation for it was doubtless the freight wreck near Stephensburg yesterday, in which no one was hurt.

To know of and use a food that will feed and restore brain and nerves before slight nervous troubles end in complete nervous prostration or brain-fag is wise, for unless proper food is supplied daily it is unreasonable to expect the nervous system to answer the demands made upon it.

There is a food, Grape-Nuts for this particular purpose that never fails to restore weakened nerves or fagged brain to health and strength.

A well known business man of Baltimore who made the trial says:

"Two years ago my health had become so seriously impaired it was impossible for me to attend to business. At the least exertion my nerves would give away and the condition of my system allowed me little or no rest or sleep at night. Stomach trouble soon followed and I could take no solid food. I tried the best tonics and medicines but they all failed.

"Finally Grape-Nuts food was recommended and after using it for 10 days I began to feel its good results and at the end of three months I was again a well man—nerves restored to their normal condition, strength renewed, and I was able to do any amount of both mental and physical work without even feeling fatigued.

"I know Grape-Nuts built up my brain and nerves and still keep them strong and vigorous. Just exactly as food-builds up muscles or fat, for instance, and I am glad to have learned this valuable lesson." Name given by Postum Co., Battle Creek, Mich.

Trial 10 days proves things when Grape-Nuts food is used. There's a Reason.

## A Suggestion for Prudent Men

To the average man five or ten dollars a month saved appears too insignificant to pay for the effort, yet a laying aside of ten dollars each month and the judicious investment of it may prove the beginning of a fortune.

These ends are accomplished through the LEVEL PREMIUM SIX-YEAR BONDS of the Southern Mutual Investment Company of Lexington, Kentucky, which specifies the length of the investment period, seventy-four months, consequently the company may buy longer term securities than savings banks, which pay larger profits and are at the same time just as safe. The Southern Mutual Investment Company distributes all earnings amongst investors, in proportion to their investments. Furthermore, this company handles only the safest securities, taking no speculative chances, so that there is no possibility of loss to the bondholder, and he is further protected by the company's deposit of \$100,000 with the Kentucky State Treasurer; by the facts that all officers and employees are heavily bonded in Fidelity Companies, and the business is controlled by state laws and under the supervision of state officials.

One unusually attractive feature of the Level Premium Six-Year Bond is that the redemption of coupons during the term of the contract secures an income to the bondholder, which, of course, may be compounded by reinvesting—a thing not accomplished under any other form of installment investment.

Men in any station of life may buy these bonds, and every one receives returns in absolute proportion to the size of the investment. The bond may be paid for by monthly installments of as little as \$2.25, and any multiple of \$2.25 may be invested.

This company, with its past experience and present earnings as criteria, estimates that on a net investment of \$7.40 (extending over a period of seventy-four months) in this bond, the holder should receive a profit of \$493.33 1/3.

Does any other institution, affording the same security, pay as great a profit in an equal period of time?

## A FEW FACTS ABOUT The Southern Mutual Investment Company

Has been in active operation ten years.  
Has accumulated assets of over \$950,000.00.

## Hayes' Beechwood Emulso-Hypo With Iron

Makes Fat, Strength, Blood, Bone and Muscle.

If you are tired, broken down, despondent, worn out, pale, losing flesh, have no energy, do not feel like rising in the morning for the day's work, you need a bottle of this wonderful medicine. Do you want good rich red blood? Do you want the bloom to come back to the cheek? Are you convalescing after having fever, pneumonia or measles? Then you ought to take a bottle of EMULSO-HYPO. Its medicinal food that reaches every tissue in the body and builds you up. Taken in a little wine its as pleasant as cough syrup.

Read what the editor of the Meridian Star of Mississippi, A. G. Davis, writes under date of April 8:

"My mother took the Emulso-Hypo and has been greatly benefited. She is in better health than she has been in years."

J. W. Russell, county clerk of Hickman county, Tenn., writes:

"My wife has used several bottles of Emulso-Hypo with Iron and has been wonderfully improved. I can conscientiously recommend it for all lung trouble."

Rev. G. T. Sullivan, presiding elder of the Memphis district, writes under date of Dec. 1, 1903:

"My daughter, whose system was very much run down, has been taking your Beechwood Emulso-Hypo with iron, and has improved so much with one bottle I have no doubt by continuance she will be fully restored in her nerve forces. I am delighted with the results and shall continue her on it. Wishing you prosperity, I am, yours truly,

### SAID HE WAS ROBBED.

J. C. Conser, of Loia, Livingston county complained to the police last night that he came up on the Dick Fowler and found before the boat reached the city that he had been "touched" for \$20 and a gold watch while he was asleep on the boiler dock. He thinks two negroes robbed him but no trace of his property could be found, and no arrests were made.

### CURES OLD SORES.

Westmoreland, Kan., May 5, 1902. Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allenaville, Mills Co., Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle.

Sold by DuBois, Kolb & Co., Paducah, Ky.

LAX-FOS For the Kidney, Liver and Stomach

Written at Random.

Mr. Dick Clements has just returned from a fishing trip down in Ballard, and has a new stock of fish stories. He states that two of the fish he caught were hooked in a most peculiar manner. He found on drawing one up that it had been hooked from the outside. Mr. Clements thinks the unwary buffalo must have been disporting himself about the hook and by getting too close disturbed the cork, causing him to think he had a bite. He jerked the hook and it came up through the outside of the fish's mouth, which seemed to be nearest the hook. Mr. Clements also hooked a fish through the body a short time afterwards.

Former Mayor James M. Lang will have his picture hung in the council chamber at the city hall. The former mayor himself is probably not ambitious to occupy the council chamber with the present administration, but he is not so particular about his picture. He is an extremely modest man, and does not like publicity or parade, but as he himself inaugurated the plan to hang the portraits of ex-mayors in the city hall, he could not well refuse yesterday afternoon when the committee called on him and demanded his own picture for the council chamber.

Mr. Henry Cornilland, the gardener, had on the market yesterday the most peculiar flower ever seen by many of the older citizens. None of them knew what it was, and neither did Mr. Cornilland. It was a monstrous lily with a dark exterior and a dark, rich red interior. A large stem, coal black, shot up through it, and the velvety green of the leaves on the outside added to the harmonious attractiveness of the flower. Mr. Cornilland says that the plant has been in his yard for many years and it is the first time it ever bloomed except once many years ago, when it had a few small flowers on it, different from the ones now on it. There is no fragrance to the blooms, in fact they have a bad odor until cut, when they lose it.

A new industry, to this section at least, is the raising of peanuts. A fact which many of the farmers will learn of with some surprise is that a number of Paducah's country land holders have the past few weeks "put in" good sized crops of peanuts and are now awaiting their growth and maturity with deep interest. The "idea" is the result of the efforts of the management of the peanut factory which has for several years been doing business in this place to introduce the industry of nut raising in this section. The offer was held out to supply them with seed nuts and to take their entire crops at the best figures, and the result has been the planting of a number of acres in the popular "roaster." If the crops turn out half as well as is promised and the revenue results are accordingly next year will no doubt see the crop of this year more than quadrupled. The Sun gets it from a source reliable that fully one hundred acres within McCracker county are now down in peanuts, which is something never heard of before in this section, as to the equal number of square yards even. The same authority says the production of peanuts is but in its infancy as to what it will be within the next few years, as the nut is growing in demands for the use in making cheap coffers, for use in making cocoa, and for making so-called olive oil. He declares the nut not only a profitable but a demanding "crop," and hence his declaration as to its future importance to the land holders even of this section of the state.

# NAPOLEON, As Seen by His Associates

NAPOLEON AND THE WOMEN

Copyright, 1904, by G. L. Kilmer.

V.  
IN a chat one day at St. Helena with the English bred physician who attended him in exile, Dr. O'Meara, Napoleon spoke of the custom among Englishmen of allowing the ladies to go away from the table and remaining for hours to drink and intoxicate themselves. O'Meara protested that the men remained more for the sake of conversation than for wine. Napoleon professed to doubt this.

"It appears to me," said he, "that you do not pay regard enough to the ladies. If your object is to converse instead of to drink, why not allow them to be present? Surely conversation is never so lively or so witty as when ladies take a part in it. If I were an Englishman I should feel very discontented at being turned out by the men to wait for two or three hours while they were guzzling their wine. Now, in France society is nothing unless ladies are present. They are the life of conversation."

Another view of Napoleon's as to woman's proper sphere is reported by Roederer, who served the empire as administrator:

"Women had far better work with their needles than with their tongues, especially if they are going to mix in politics. A state is lost when a woman manages its public affairs. France perished through a queen. Look at Spain—the queen governs there. For my part, if my wife wishes a thing it is a reason for me to do the contrary."

The wife referred to was Josephine.

who was near him in the suit of Josephine, tells of an episode which came under her observation. She says:

"During the emperor's stay at Munich he took it into his head, by way of recreation after his labors of the past months, to indulge in a fancy, partly political, partly social, for the queen of Bavaria. That princess, who was the king's second wife, without being very beautiful, was of an elegant figure and pleasing though dignified manners. I think the emperor pretended to be in love with her. The lookers on said it was amusing to watch the struggle between his imperious temper and rude manners and the desire to please a princess accustomed to that kind of etiquette which is never relaxed in Germany on any occasion whatever. The queen of Bavaria contrived to exact respect from her strange admirer and yet seemed to be amused with his devotion."

Yet at times Napoleon was the reverse of gallant, according to this same authority, from whose memoirs the above extract and the one following are taken:

"The emperor, who was convinced that the influence of women had harmed the kings of France, was irrevocably resolved that they should never be more than an ornament to his court, and he kept his resolution. He had persuaded himself, I know not how, that in France women are cleverer than men, or at any rate he often said so, and that the education they receive de-

## What Will Cure Weak Men

Here is a prescription that has proved most wonderfully effective in even the oldest men.

ANYONE CAN HAVE IT FREE

A combination of ingredients has been found by a Detroit doctor which together comprise a prescription for the cure of weak men that certainly has

DR. H. C. RAYNOR.

never been equalled for quickness and thoroughness of cure, and all weak men everywhere should send for it, as it costs you absolutely nothing. It is free, and in this way many a weak man has cured himself in the privacy of his own home when all other things seemed to fail him. It will cure any weak man up to the age of 73, and not only make him a stronger and more vital but cure all complications as well. It gets at the very root and cause of the disease, and not only banishes it forever but builds up the general health and all the important organs so that the body is fortified against any relapse. All men should have it who suffer from lost manhood, vital weakness, losses, premature, stricture, enlargement of the prostate, etc., for we know it will cure them. You accomplish the cure yourself at home, and no one is the wiser. In order to get it write Dr. H. C. Raynor, Luck building, Detroit, Mich., and besides the free prescription, he will send you a booklet on diseases of men that should prove very helpful to you. This is also free, so write soon.

## BASEBALL

GOOD GAMES ARE PROMISED FOR TODAY AND TOMORROW.

On account of the long trip from Kansas City the St. Louis colored team could not play good ball yesterday, but last night two good pitchers arrived and will pitch today and tomorrow, and good games are promised.

A crack team from Hot Springs, Ark., and Memphis, Tenn., will be here this month. They are the best teams in their cities.

After playing a series of games here the Paducah team will go to Nashville, Chattanooga, Birmingham and Macon, Ga., and on their return they will play three games here on August 5 and 8, also play 24, 25 and 26.

They will leave in August for twenty-three games in Illinois, Michigan and Missouri, and will play this winter down south.

## WHY IT SUCCEEDS.

BECAUSE ITS FOR ONE THING ONLY, AND PADUCAH IS LEARNING THIS.

Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills do one thing only.

They're for sick kidneys.

They cure backache, every kidney ill. Here is Paducah evidence to prove it.

J. A. Houser, of 1421 South Ninth street, carpenter, says: "I have been subjected to kidney complaint all my life; not constantly or seriously, but every now and then—sometimes without warning—I had attacks, some of which laid me up. I noticed that the contraction of a cold always affected my kidneys and when in this condition, in addition to backache, there was trouble with the kidney secretions. Like I had tried more than one preparation I got Doan's Kidney Pills at Dulles & Co's drug store and took a course of the treatment. The last attack disappeared. So pleased was I with the results that I gave Doan's Kidney Pills to a child of mine annoyed with weak kidneys. The results obtained stamp Doan's Kidney Pills as being up to representations."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

**A Missouri Judge.**  
It does not always pay to appear too independent, especially in a courtroom. They are telling the following story on a former Missourian, who is now a judge in Oklahoma: A gambler was tried before the judge recently and convicted of playing poker. His appearance in court dressed in flashy style and with plenty of money in his pockets, apparently unconcerned as to the outcome of his trial. Looking over his spectacles, the judge in a squeaky voice said:  
"Jim, stand up." The gambler obeyed.  
"Jim, have you anything to say before I pass sentence on you?"  
"No, sir."  
"Jim, I'm a-goin' to fine you \$50--"  
"All right, judge," interrupted the gambler, "here it is in my hip pocket."  
"And give you sixty days in jail," continued the judge. "Now, look and see if you've got that in your hip pocket, too."—Kansas City Star.

**King's Band Disbanded.**  
King Edward has given orders for the disbandment of his private band, one of the ancient features of his court. In its present form it was established by Charles II. It is composed of thirty-four musicians under the direction of Sir Walter Parratt, "master of the music."

**When Trees Were Valued.**  
Harry C. Piercy, member of the Republican Club House Committee, overheard an amusing conversation at the ladies' reception in the new club house last week. A very pretty girl was talking to an elderly man. They were standing by the window in the lounge room facing Bryant Park.  
"Oh, Colonel," said the young lady, "just look at those trees! Aren't they beautiful?"  
"Yes, to some extent," replied the old warrior; "but—"

"Why, don't you like trees?" interrupted the girl.  
"Indeed I do! There were times when I positively loved them—during the war."—New York Times.

**Horse and Automobile.**  
Once upon a time a faithful horse found that his master was using him less and less, and the neglect made him extremely unhappy, though he could not account for it.

One day, while in his pasture, he saw his master riding down the road in a vehicle that moved very rapidly, though there was no horse attached to it. He made inquiry and learned what had brought the change in his life.

"Alas!" he sighed, "I have lost my prestige, and the automobile comes first."  
Moral:—The cart is before the horse.

### Various Lungs.

Three human lungs lie next one another in the anatomical museum at Edinburgh university. The first is that of an Eskimo and is snow-white. In life this would, of course, be ruddy from the presence of blood. The third is that of a coal miner and is coal black. The intermediate one is that of a town dweller and is a dirty slate-gray, as are the lungs of all dwellers in cities at this moment.

### Baptists in Russia.

The recent edict of the Czar granting religious toleration in the empire, will probably make the condition of Baptists more tolerable than it has been. There are 198 Baptist churches in Russia, with 22,244 members, and last year 1,254 were added by baptism.

## THE D— FOOL VOTE.

How Champ Clark Won Precinct by Darling Rejoinder.

Congressman Champ Clark usually manages to take pretty good care of himself, whatever the circumstances. During one of his campaigns in Missouri he struck an exceptionally hostile neighborhood. He had been subjected to several interruptions, and finally a burly fellow strode down to the front of the platform and said:

"Say, you're a d— fool, and everybody here knows it!"  
Clark's face actually became radiant at this announcement. He leaned over, and before the bewildered spectator who had buried the epithet could think, seized his hand and wrung it warmly. Then, facing his audience squarely, said:

"The remark of my friend here has given me renewed encouragement. If before I had any shadow of doubt as to my success, he has dispelled it, for if I poll the full d— fool vote of this precinct, I will be elected by a rousing majority."

Clark afterward said he knew he was taking long chances. But the audience went wild over the rejoinder, and the Congressman really did carry the precinct when election day rolled around.—Baltimore Herald.
